

Spring 2012 Continuing Education Class Schedule

STAR Program 2012 Requirement

There are several ways you can register:

- * On-line @ www.fti-um.org
- * Call the Apprenticeship Office @ 651-379-9600
- * Forms are available outside Apprenticeship Office

Full Star Class (Meets 8-hour requirement)

Partial Star Class (Requires 2 classes to meet the 8-hour requirement)

1st Aid/CPR/AED

Jan. 10th, 2012 - Tues (4-9:00 pm)
Feb. 16th, 2012 - Thurs (4-9:00 pm)
Apr. 11th, 2012 - Wed (4-9:00 pm)

Aerial Lift

Apr. 2nd, 2012 - Mon (4-9:00 pm)
Apr. 24th, 2012 - Tues (4-9:00 pm)

Arena Rigging Basic Class

May 22nd & 23rd, 2012 - Tues & Wed
(4:30 - 8:30 pm)

Basic Tradeshow Class B to A to J

Feb. 8th & 9th, 2012 - Wed & Thurs (4-8:00 pm)
July 11th & 12th, 2012 - Wed & Thurs (4-8:00 pm)

Basic Math & Tools for Trade Shows

May 7th & 8th, 2012 - Mon & Tues (4-8:00 pm)

Blueprint Reading

Mar. 26th & 27th, 2012 - Mon & Tues (4-8:00 pm)

CDL Class

April 21, 2012 - Saturday

Pro-10 Certification

Feb. 27th & 28th, 2012 - Mon & Tues (4-9:00 pm)

Pro-10/Core 4 (See pre-requisite)

Feb. 1st, 2012 - Wed (4-8:00 pm)
Apr. 26th, 2012 - Thurs (4-8:00 pm)

Crane Operator Re-Certification

Apr. 10th, 11th, 12th, 2012
Tuesday, Wednesday, Thursday (4:30-8:30 pm)

Drywall Finishing

Apr. 17th & 18th, 2012 - Tues & Wed (4-8:00 pm)

Fall Protection

Jan. 4th, 2012 - Wed (4-8:00 pm)
Apr. 23rd, 2012 - Mon (4-8:00 pm)

Forklift

Jan. 4th, 2012 - Wed (4-8:00 pm)

Forklift /Lull

Mar. 21st, 2012 - Wed (4-9:00 pm)
Mar. 22nd, 2012 - Thurs (4-9:00 pm)

Intro. To Industrial Painting (16-hours)

Feb. 27th & 28th, 2012 - Mon & Tues
(7:00 am - 3:30 pm)

Installation & Dismantle of Trade Show Booths

May 2nd & 3rd, 2012 - Wed & Thurs (4-8:00 pm)

Lead Abatement (24-hours)

Mar. 14th & 15th, & 16th, 2012
Wed, Thurs & Fri (7:00 am - 3:30 pm)

Lead Refresher

Feb. 29th & Mar. 31st, 2012 - Wed & Thurs (4-8:00 pm)

Lead, Silica, Asbestos & Mold Awareness

Jan. 5th, 2012 - Thurs (4-8:00 pm)
Apr. 24th, 2012 - Tues (4-8:00 pm)

Low Voltage

Mar. 3rd, 2012 - Saturday (7:00 am - 3:30 pm)

Class schedule continued on back page

OSHA-10

Jan. 25th & 26th ,2012 - Wed & Thurs (4-9:00 pm)
Mar. 7th & 8th, 2012 - Wed & Thurs (4-9:00 pm)
Apr. 9th & 10th, 2012 - Mon & Tues (4-9:00 pm)

OSHA Construction Industry

Feb. 2nd, 2012 - Thurs (4-8:00 pm)
Apr. 25th, 2012 - Wed (4-8:00 pm)

Renovation, Repair, & Painting (RRP)

Mar. 3rd, 2012 - Saturday (7-3:30 pm)
Apr. 4th & 5th ,2012 - Wed & Thurs (4-8:00 pm)

Respiratory Protection

Jan. 3rd, 2012 - Tues (4-8:00 pm)
Apr. 30th, 2012 - Mon (4-8:00 pm)

Rigging & Signal for Person for Crane

Mar. 26th, 27th, & 28th, 2012 (4-8:00 pm)
Monday, Tuesday and Wednesday

Scaffold/Swingstage

Jan. 30th & 31st, 2012 - Mon & Tues (4-8:00 pm)
Mar. 28th, & 29th, 2012 - Wed & Thurs (4-8:00 pm)

Spray Systems

May 1st & 2nd, 2012 - Tues & Wed (4-8:00 pm)

Super Sky

Apr. 30th & May 1st, 2012 - Mon & Tues (4-8:00 pm)

Welding/Refresher/Certification

Tuesday & Thursdays (5-8:00 pm)

Must attend all 8 classes - \$100.00 Deposit

January 10th, 2012	January 24th, 2012
January 12th, 2012	January 26th, 2012
January 17th, 2012	January 31st, 2012
January 19th, 2012	February 2nd, 2012

Welding/Refresher/Certification

Tuesday & Thursdays (4-8:00 pm)

Must attend all 6 classes - \$100.00 Deposit

February 14th, 2012	February 23rd, 2012
February 16th, 2012	February 28th, 2012
February 21st, 2012	March 1st, 2012

Welding/Refresher/Certification

Tuesday & Thursdays (5-8:00 pm)

Must attend all 8 classes - \$100 Deposit

March 20th, 2012	April 3rd,2012
March 22nd, 2012	April 5th, 2012
March 27th, 2012	April 10th, 2012
March 29th, 2012	April 12th,2012

Rochester

Scaffold/Swingstage

Apr. 14th, 2012 - Sat (7:00 am - 3:30 pm)

1st Aid/CPR/AED

Mar. 8th, 2012 - Thurs (4-9:00 pm)

Duluth

MSHA (24-hours)

Jan. 5th, 2012 - Thurs (1:00-9:00 pm)

Jan. 6th, 2012 - Fri (1:00-9:00 pm)

Feb. 3rd, 2012 - Fri (1:00-9:00 pm)

OSHA-30 - To qualify for OSHA-30, you must take OSHA-10, OSHA Construction Industry, Respiratory Protection, Lead-Silica-Asbestos-Mold Awareness, Fall Protection, and either Aerial Lifts or Scaffold/Swingstage within a six month period.

COURSE DESCRIPTIONS

1ST Aid/CPR/AED – This 5-hour class has an emphasis on life saving skills. After completing a written exam and demonstrating skills knowledge, the student will receive a 3-year certification in First Aid and a 1-year certification in CPR/AED.

Aerial Lifts – This 8-hours class familiarizes a trainee with the knowledge and skills needed to safely operate a variety of lifts including scissors and telescoping. Trainees participate in extensive step-by-step hands-on training. In addition, comprehensive classroom will be presented. After passing an exam, operators will receive a 3-year certification.

Arena Rigging Basics Class – This class covers basic rigging for convention workers in arenas and other trade show venues. *(This course does not certify for ETCP)*

Basic Math & Tools for Trade Shows – This course covers math needed to set-up for trade show events and work with tools to get the job done.

Basic Tradeshow Class B to A to J – Basic advancement for Trade Show Industry. Highlight safety and basic trade show needs.

Blueprint Reading – This 8-hour class will cover types of lines, symbols, use of scales, dimensions, floor plans, and room finish schedules.

Commercial Drivers License (CDL) Behind the Wheel - This course provides opportunity for CDL Class A permit holders to refine their driving skills before taking the road exam.

Crane Operator Re-Certification – This course is designated for Crane Operators who need to renew their operator's certification. Timing of re-certification is critical, since lapses from expiration may require individuals to start over on certifications. *Please contact Jerry Meissner directly to discuss.*

Drywall Finishing – This 8-hour class will cover the basic tools, bead work, compounds, and textures most common to the finishing of drywall.

Fall Protection – This 4-hour class will cover regulations under OSHA of where and when you need to have Fall Protection. It will also cover the different types available and the advantages of each type for different jobs.

Forklift – This 4-hour class will feature classroom and hands-on training to qualify the operator. After passing an exam, operators will receive a 3-year certification.

Installation & Dismantling of Trade Show Booths – This course provides training in basic techniques of assembly, installation and dismantling of trade show booths. Focus is on types of systems and efficiently getting the work done.

Introduction to Industrial Painting – This 1-hour class covers the basics of sand blasting and what you would find to be different on an industrial job vs. commercial job. There are approximately 8-hours of classroom and 8-hours of hands-on blasting.

Lead, Silica, Asbestos and Mold Awareness – Attendees will learn how to recognize, prevent, and respond to possible exposure to these hazards.

Low Voltage Refresher – This class specifically designed for those who currently hold a PLT License. As a PLT License holder, you are required to complete 16-hours of continuing education to maintain your license. This class A will fulfill one half of the 16-hours. Class B will be added to complete the second 8-hours of the 16-hours required. Make sure you get into a Class A and Class B before your license expires.

The class will cover the National Electrical Code's that apply to the Low Voltage and Limited Energy Systems. *Your must bring your PLT License with you.*

MSHA – This is a 24-hour class for the initial training and you will need to take an 8-hour refresher class annually. Course will talk about the fundamental risks associated in above ground mining work and will give you the training you will need to be able to work safely in this environment.

OSHA-10 – This class provides the trainee with the basics of Occupational Safety and Health Act (OSHA) in construction standards. The course objective is protecting the worker and covers ten different subparts of the OSHA Standards including; Introduction to OSHA, Electrical, Fall Protection, Stairways and Ladders, Scaffold Safety, Tool Safety, Personal Protection Equipment, Hazard Communication, Materials Handling and Ergonomics. *Must attend all 10-hours to receive certificate.*

Pro-10 Certification – This is a professional skill training class that goes beyond technical training. A few of the topics covered are; Professionalism, Safety, Communications, Mutual Respect and Changing Perceptions. You will receive the Pro-10 Certification card upon completion. Some job sites will soon be requiring you to have this card in order to work on that site, just like OSHA-10 is.

Pro-10/Core 4 – This class is offered to anyone who has completed their apprenticeship within the last 3 years (*pre-requisite*) and would like to get their Pro-10 Certification card.

Respiratory Protection – This 4-hour class objective is to provide knowledge of the variety of masks and the proper filters that apply to the work and materials being used at the worksite.

Renovation, Repair & Painting (RRP) – This 8-hour class will teach you how to comply with EPA Renovation, Repair & Painting Rule and the HUD Lead Safe Housing Rule, and how to perform lead-safe work practices safely and effectively. Upon completion of this course, you will be an EPA Certified Renovator.

Rigging & Signal Person for Cranes – Upon successful completion, the trainee will be able to pass a written exam demonstrating comprehension of the basic selection, inspection, and safe use of the signal and basic rigging materials when attaching loads for the overhead hoisting equipment.

Scaffold/Swingstage – This course will focus on using scaffolding safely while observing all safety rules and regulations to prevent serious fatal injuries. The training will include a variety of scaffold types including rolling tower, double deck baker scaffold with handrail, and outrigger system. Course will provide a trainee with a thorough understanding of the building and dismantling of scaffold systems with hands-on experience combined with classroom instruction.

Super Sky – The purpose of this module is to introduce the glazier to the basics of skylights. There will be hands-on opportunities to assemble and glaze pyramid and Hip Ridge Skylight System.

Welding Refresher – This course is designed for those who would like to prepare for a welding certification. This will be a 24-hour course of welding techniques that include the skills of Shielded Metal Arc Welding (SMAW) in all positions with 6010 & 7018. The pre-requisite to attend this refresher training is 32-hours of welding training or experience.

Welding Certification – This course will focus on an AWS D1.1 Certification. All welding performed in the vertical and overhead positions with E7018 1/8" rod. The welding will be on 5/16" and 3/8" steel plate. You will practice one position in three classes and test on the fourth class. *Pre-requisite to attend the Certification class, you must have completed the Refresher course.*
